4mm

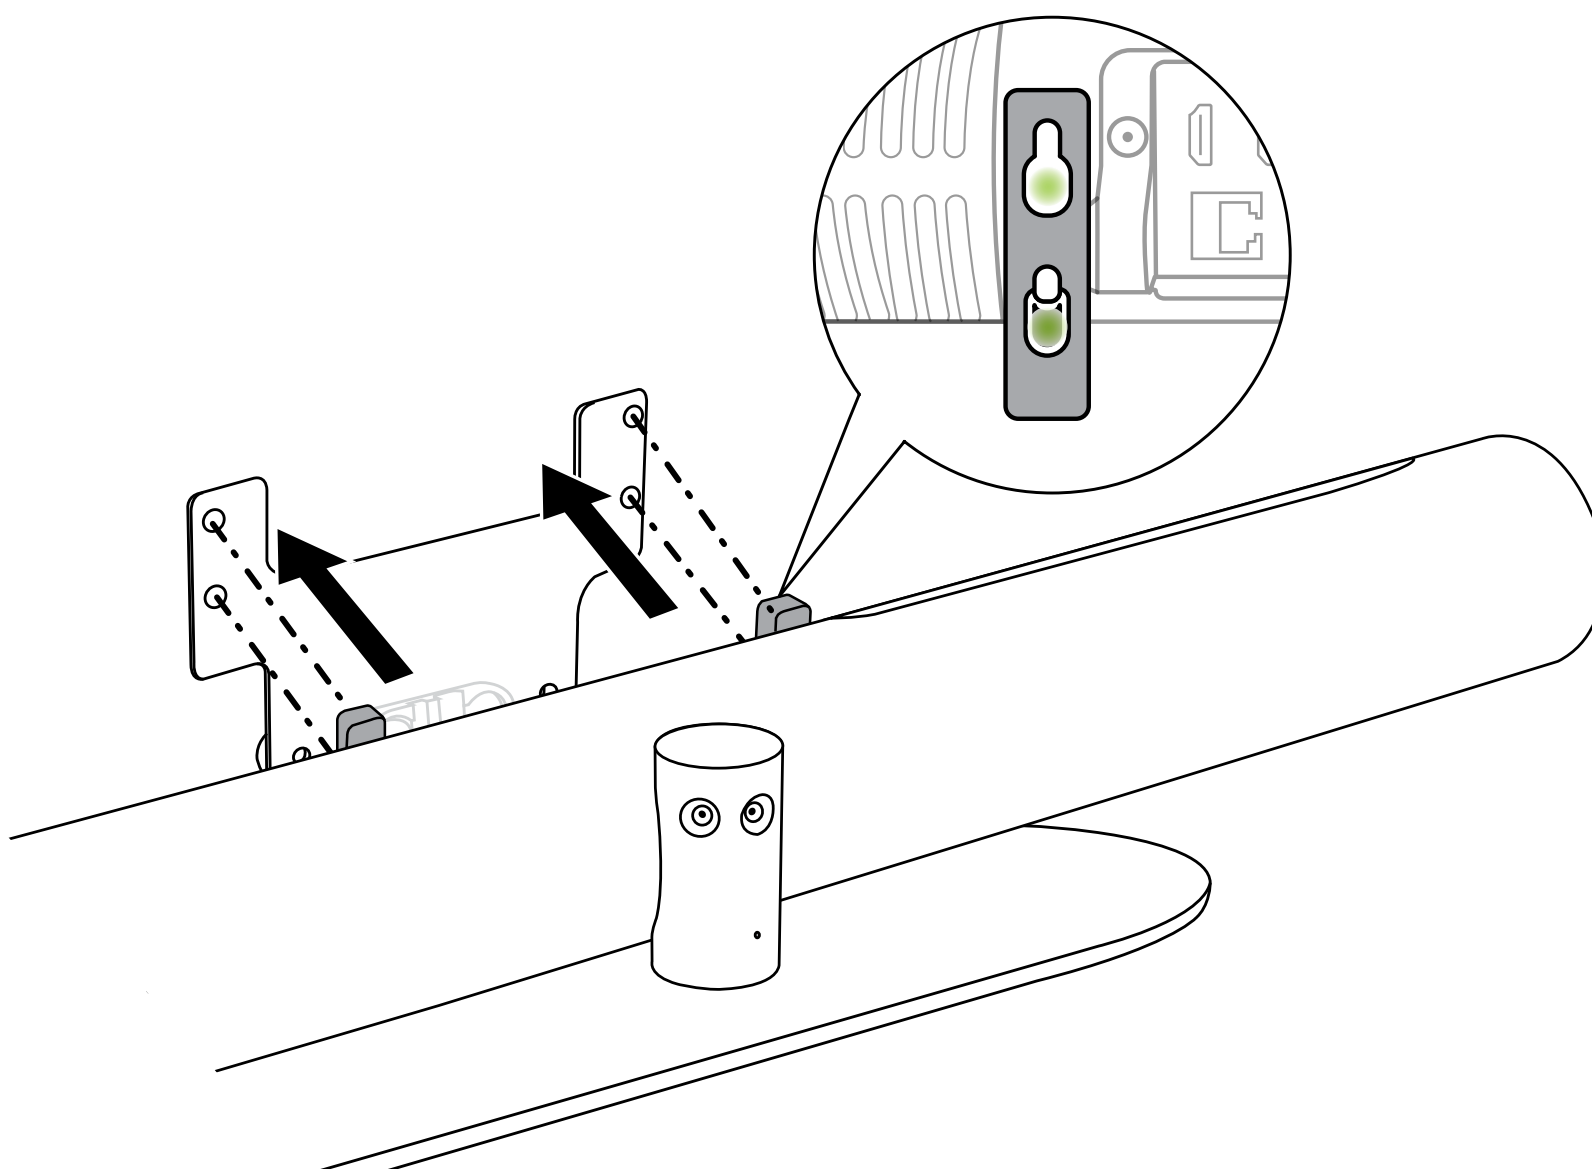

1

Unscrew and remove the cable cover.

2

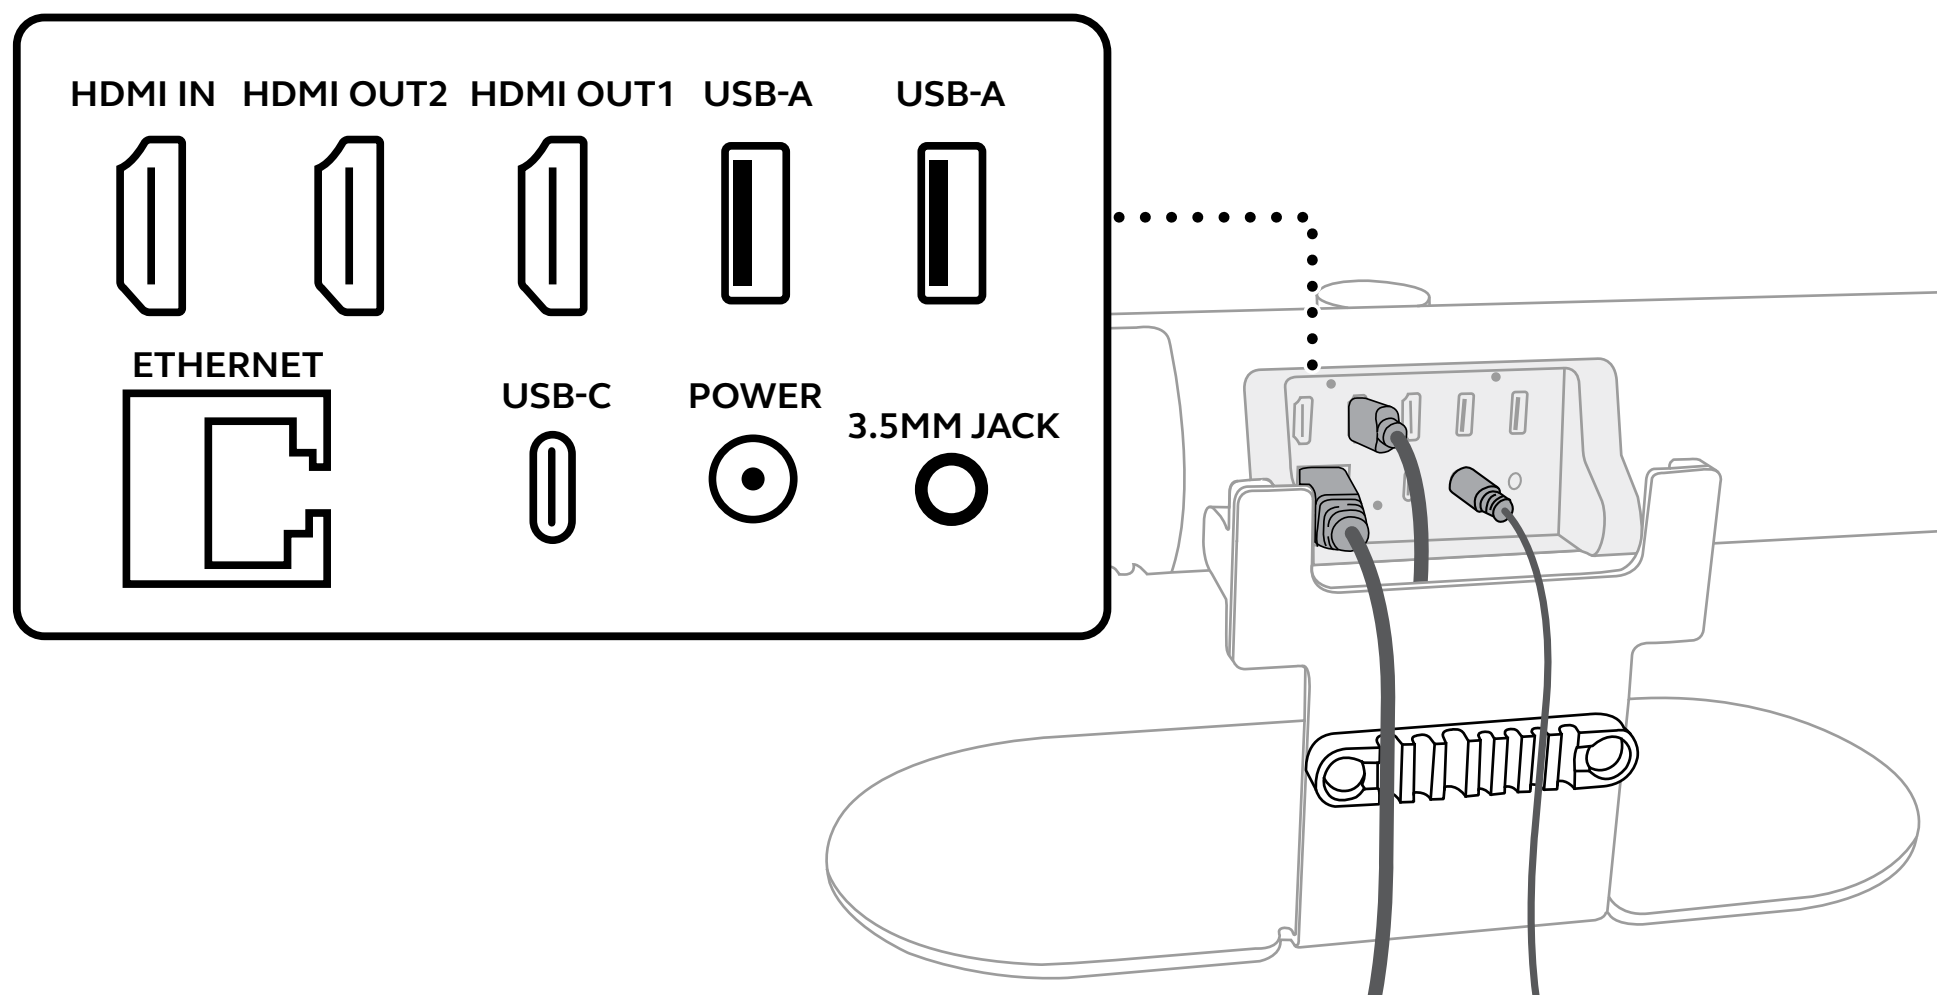

Attach the video bar to the Table Stand. Screws are not required.

3

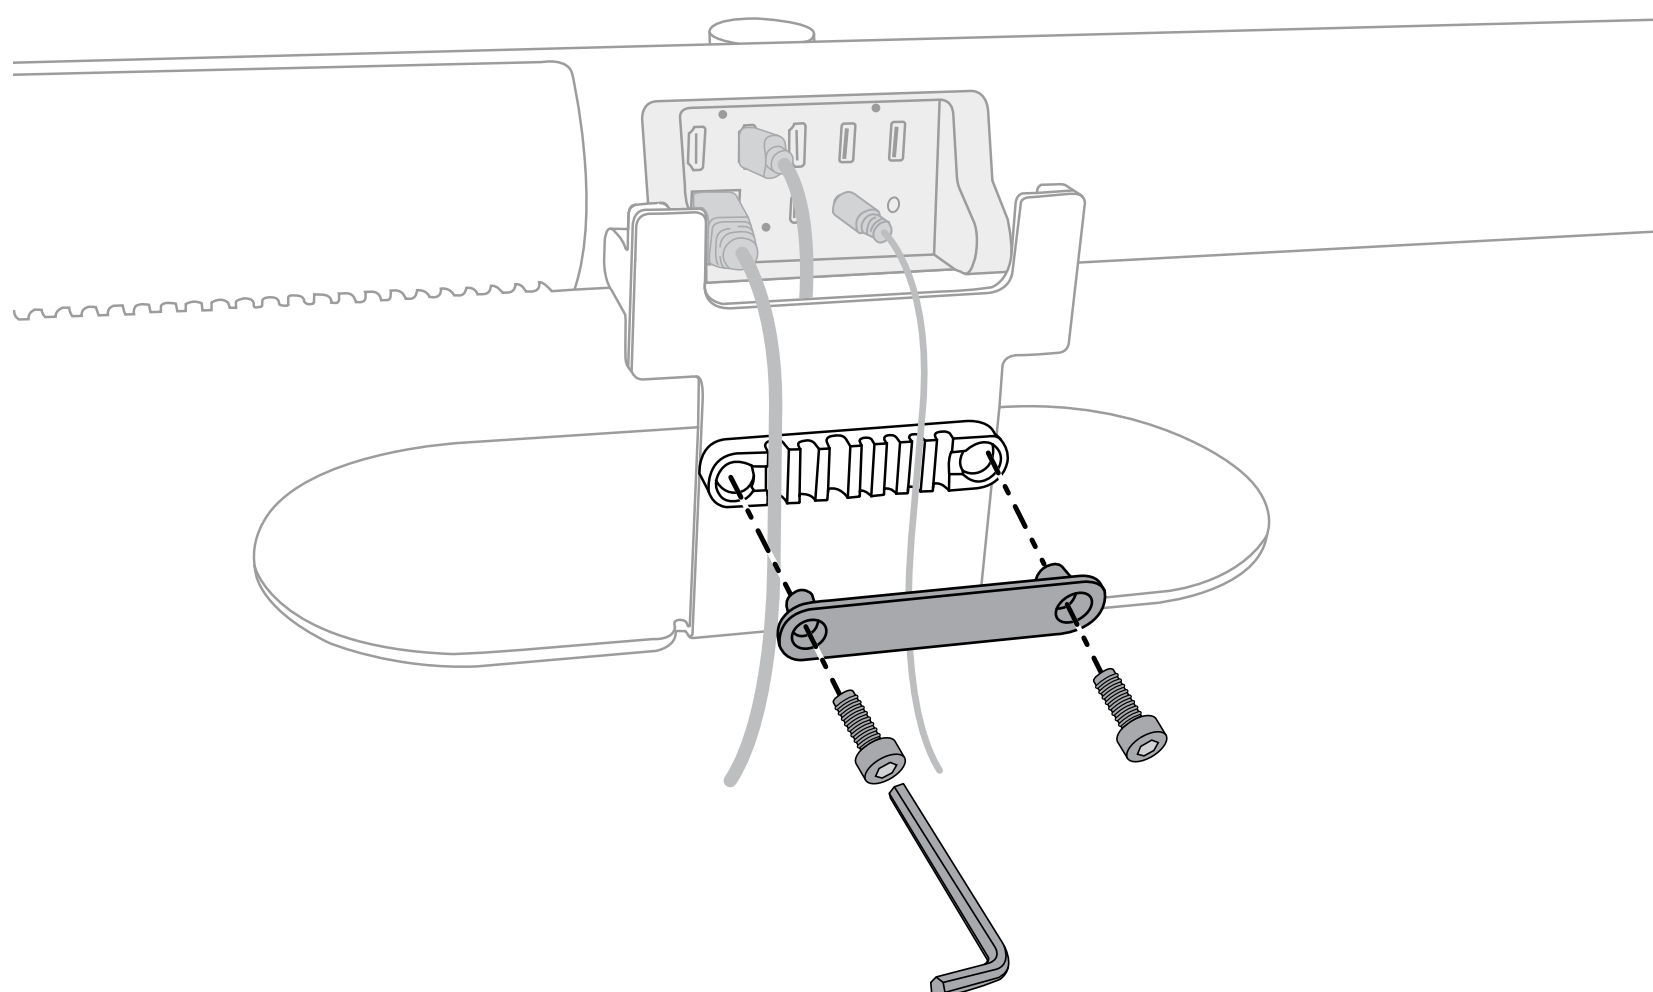

Use the cable organizers on the front and back of the Table Stand to keep the cables neat and tidy.

*(The cable organizer on the back is for cables to the monitor, power and ethernet.  
The cable organizer on the front is for cables to laptops and BYOD.)*

4

Screw the cable organizer lids to the Table Stand using the supplied screws.

5

Screw the cable cover to the video bar using the supplied screws.
